

Racquetball Court Flooring

AacerCush 'I' Sleeper System

'AacerCush I' rests snugly on a padded sleeper system. It's the padded sleeper that makes AacerCush a very resilient floor. Players, Athletic Directors and Coaches find the natural resiliency provides a very pleasing floor system to play on. It is one of the most widely utilized athletic floor because of its resilience, low cost and ease of installation. 'AacerCush I' is ideal for racquetball and squash courts, stage floors, gymnasiums, and multipurpose rooms.
