

The Classic Story

For over 30 years in the industry, and as a leader in the distribution of plastic laminate and wood lockers, panelized racquetball and squash courts, and athletic glass wall systems; Classic Woodworking provides quality and craftsmanship second to none. With our manufacturing headquarters located in Texas (USA), we have the capabilities and facilities to ship materials anywhere around the world. Equipped with the latest technology, Classic Woodworking continues to provide first class products backed by a long lasting reputation.

Wood Locker Systems

Classic Woodworking's locker systems have added prestige and lasting style to thousands of country clubs, health and fitness centers, medical facilities, schools, and corporate facilities for over two decades. All raised panel, flat panel and louver doors are manufactured in-house giving us higher quality control and reduced lead times. Our manufacturing also lays up its own plastic laminate – the only wood locker manufacturer that meets and exceeds all architectural specifications.

Racquetball Court Systems

Classic Woodworking's panelized court systems and the Altempco Glass Walls are commonly used for racquetball and squash courts in providing a perfect package for any project. Classic Woodworking is the only panel distributor who also supplies it's own athletic glass wall systems, thus giving us the edge over other companies. Since 1981, we have provided turnkey systems to colleges and universities, apartment complexes, residences, health and fitness centers, and recreational facilities around the world. Such turnkey systems include wood flooring, light fixtures, steel stud framing, and installation. Not only are Classic Woodworking's court systems and the Altempco Glass Walls commonly specified on projects around the world, they are also certified and approved by the World Squash Federation (WSF), the governing body of squash for world play.

Impeccable Service

Because customer satisfaction is Classic Woodworking's number one priority, we have implemented an after-market department and AutoCAD design department to ensure quality products and services. Not only can we assist with supplying after-market products to you at anytime, we can also offer assistance with the layout and design of your locker rooms and court systems. Our highly skilled design team is equipped with AutoCAD technology as a means to provide the best utilization for your locker rooms and court space. Based on our many years in the industry and our experienced staff, you can feel confident in using Classic Woodworking products. Please feel free to contact us with any questions you may have or for any literature you need to better acquaint yourself with our product lines.
